1.   Abstract Submission

Each abstract submission should be submitted on white A4 paper and must be between 1 and 2 pages in length (plus more pages for references if needed). The fully justified text should be formatted in one column. Left, right, and bottom margins should be 1.9 cm and the top margin 2.5 cm. The font for the main body of the text should be Times New Roman 10 with interlinear spacing of 11 pt.

2.   Headings / Level 1 Headings

Headings should be capitalised in the same way as the main title, and centred within the column. The font used is Times New Roman 12 bold. There should also be a space of 12 pt between the title and the preceding section, and a space of 3 pt between the title and the text following it.

2.1.   Level 2 Headings

The format for level 2 headings is the same as for level 1 Headings, with the font Times New Roman 11, and the heading is justified to the left of the column. There should also be a space of 6 pt between the title and the preceding section, and a space of 3 pt between the title and the text following it.

3.   Citing References in the Text

3.1.   Bibliographical References

All bibliographical references within the text should be put in between parentheses with the author's surname followed by a comma before the date of publication,(Strötgen and Gertz, 2012). If the sentence already includes the author's name, then it is only necessary to put the date in parentheses: Strötgen and Gertz (2012). When several authors are cited, those references should be separated with a semicolon: (Strötgen and Gertz, 2012; Castor and Pollux, 1992). When the reference has more than three authors, only cite the name of the first author followed by "et. al." (e.g. (Superman et al., 2000)).

4.   Figures & Tables

4.1.   Figures

All figures should be centred and clearly distinguishable. They should never be drawn by hand, and the lines must be very dark in order to ensure a high-quality printed version. Figures should be numbered in the text, and have a caption in Times New Roman 10 pt underneath. A space must be left between each figure and its respective caption.
Example of a figure enclosed in a box:

Figure 1: The caption of the figure.

Figure and caption should always appear together on the same page. Large figures can be centred, using a full page.

4.2. Tables

The instructions for tables are the same as for figures.

Level	Tools
Morphology	Pitrat Analyser
Syntax	LFG Analyser (C-Structure)
Semantics	LFG F-Structures + Sowa's Conceptual Graphs

Table 1: The caption of the table

5. Footnotes

Footnotes are indicated within the text by a number in superscript[1].

6. Copyrights

The CPSS-2021 non-archival abstracts will be available online from the workshop website. By sending us your finalised abstract, you agree that it will be made available online, licensed under CC-BY-NC, the Creative Commons Attribution-Non-Commercial 4.0 International License.

7. Providing References

7.1. Bibliographical References

Bibliographical references should be listed in alphabetical order at the end of the paper. The title of the section, "Bibliographical References", should be a level 1 heading. The first line of each bibliographical reference should be justified to the left of the column, and the rest of the entry should be indented by 0.35 cm.

The examples provided in Section 8 (some of which are fictitious references) illustrate the basic format required for papers in conference proceedings, books, journal articles, PhD theses, and chapters of books.
